Office Action Summary	Application No. 09/807,337	Applicant(s) IKEURA ET AL.	
	Examiner Edward J. Webman	Art Unit 1616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1616

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4, 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Horstmann et al in view of Leonard et al and Leeder.

Horstmann et al teach a transdermal delivering estradiol (abstract). Hexylene glycol is specified as a solubility enhancer (column 2 lines 45, 58). Tackifiers and skin permeation enhancers are disclosed (column 4 line 14). Styrene-isoprene-styrene is specified (column 5 example 2).

Leonard et al teach that menthol is known as a penetration enhancer (column 2 lines 50-53). Estradiol is disclosed (examples).

It would have been obvious to one of ordinary skill to add menthol to the composition of Horstmann et al to achieve the beneficial effect of an additional permeation enhancer. As to the claimed softeners, they are well known in the rubber art (See Leeper, column 3 line 47-column 4 line 2).

Applicants argue that Horstmann et al teach a laundry list of solubility enhancers. However, applicants have not demonstrated any criticality for the claimed enhancer. Applicants argue that no one reference teaches the claimed invention. However, the obvious combination does so teach and motivation to combine is provided. Applicants argue unexpected results. However, those results are limited to the ranges of the ingredients shown in the examples.

Claims 4, 6-8 rejected. Claim 5 is objected to as dependent on a rejected claim.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Webman whose telephone number is 571-272-0633. The examiner can normally be reached on M-F from 8 AM to 5 PM.
